

# Visual Time Sheet Professional

Choose Month and year

Setup

Drag and drop time segments onto timeline

Information automatically entered from selections made below. Entry can be stretched as work proceeds

Choose client and project from pre-entered list

Indicate reporting and whether Chargeable and overtime

Choose category and activity from pre-entered list, add remarks

Reports and undo button

The screenshot shows the main interface of Visual Time Sheet. At the top, there's a calendar for February 2003. Below it is a timeline from 0800 to 1700. A yellow bar represents a time segment for 'Design & Detailing' from 0900 to 1200. Below the timeline is a form for entering time segments, including fields for Client, Project, Category, Activity, Duration, and checkboxes for 'Include in reports', 'Chargeable', and 'Overtime'. To the right, there are two 'Setup' dialog boxes. The top one shows a tree view of categories and activities. The bottom one shows user configuration options like 'User name', 'Configuration', 'Daily target', and 'Time block colours'.

## Features

- Drag and drop graphical interface
- User defined clients, projects, categories and activities
- Time-keeping to 15 minute intervals
- Chargeable, overtime and non-reportable activities
- Target daily hours check
